

An explorative approach to unsupervised intent recognition

Steeve Laquittaine

- Sophisticated models that compete in performance and in complexity on benchmark corpora of annotated queries.
- Models are typically classification or sequence models trained on databases of annotated queries then used to predict intents on unseen utterances.
- Despite the approach's growing popularity, it relies on extensive human annotations and its opacity provides little to no insights into the structure of intent representation.
- **The unsupervised approach, far less explored, could be used to reduce labelling workload while enabling the elaboration of a clear and concise formal model of natural language intent.**

“Banking77” requires annotations

Card Lost	<i>Could you assist me in finding my lost card?</i>
Link to Existing Card	<i>I found my lost card. Am I still able to use it?</i>
Failed Top-up	<i>Tell me why my topup wouldn't go through?</i>

Model	Instances per labels		
	10	30	Full
BERT-FIXED	67.55	80.07	87.19
BERT-TUNED	83.42	90.03	93.66
USE	84.23	89.74	92.81
CONVERT	83.32	89.37	93.01
USE+CONVERT	85.19	90.57	93.36

Intent Corpora

Banking77

- * Sector: Finance
- * Industry: Banking
- * task: task-oriented dialog
- * 13,083 {question, intents}
- * 77 intents
- * train input format: .csv
- * url: [13]
- * corpus url [30]
- * license
- * pros
 - * Ecological relevance:
 - * many intents, emulates commercial systems env. [13]

Input Text Utterance	Intents
Is it possible to navigate back in <XXX> to previous page after save processing? ... I have a page where I click on a link and use navigateURL ... want to be able to go back to the previous calling page and complete the processing of the save...	navigate previous page, complete processing save VB NP navigate to previous
The "Your tweets retweeted" page on Twitter... find out all the users who retweeted a tweet of mine? ... how many people have retweeted a tweet and what their Twitter IDs are?	find retweeted Twitter IDs VB NP find out all the users ...
Is there a WordPress plugin that will tweet when a scheduled post is posted? I know there are tons ... that will tweet when you publish a post, but none I have tried will do it on a scheduled post.	tweet when publish scheduled post VB PP tweet when ..
How can I keep my phone from just falling overwhen watching videos? ... also want to have my hands free to do other things ... but I find due to most phones not being particularly 'grippy' it is hard to lean them up ... any nifty life hacks for this?	keep phone from falling, have hands free VB NP keep my phone from ...
I'm starting a micro-school... I want to manage sick notes and absences ... How can I synchronize one central Google Calendar that only administrators have access... Parents should be able to schedule future absences and excuse past absences...	manage sick notes, manage absences, synchronize central calendar VB NP manage sick notes Steeve Laquitaine

Chunking

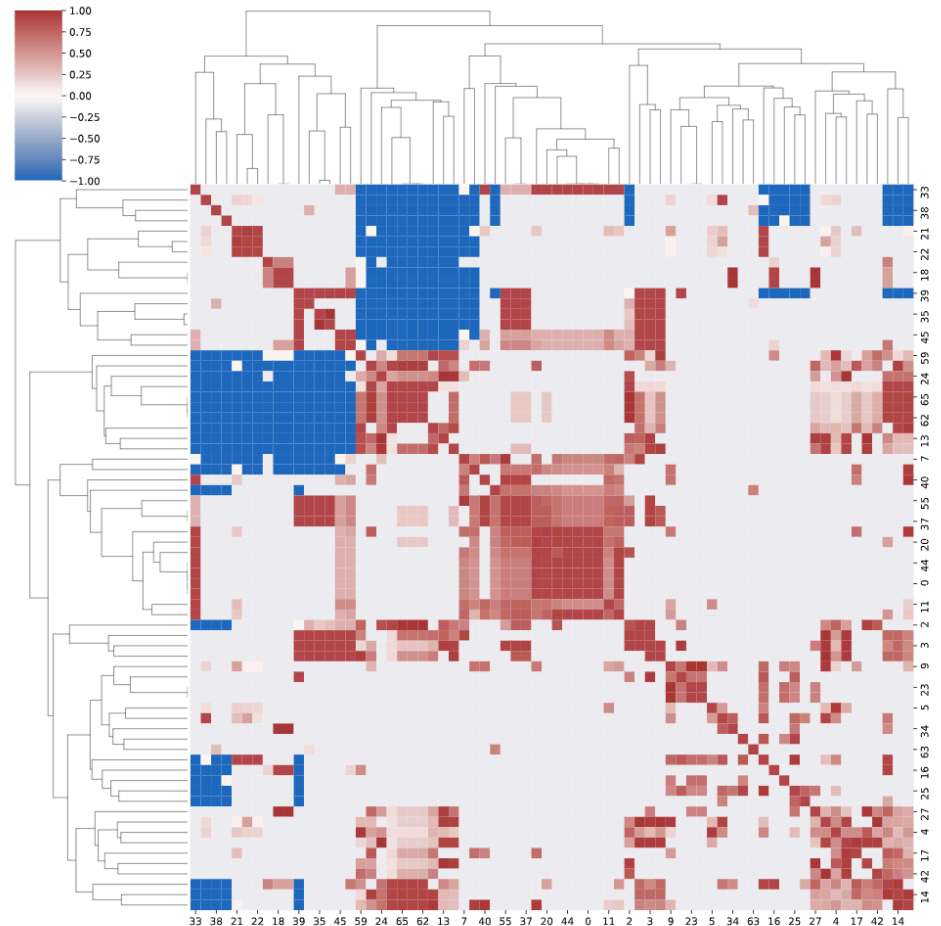

Semantic similarity analysis

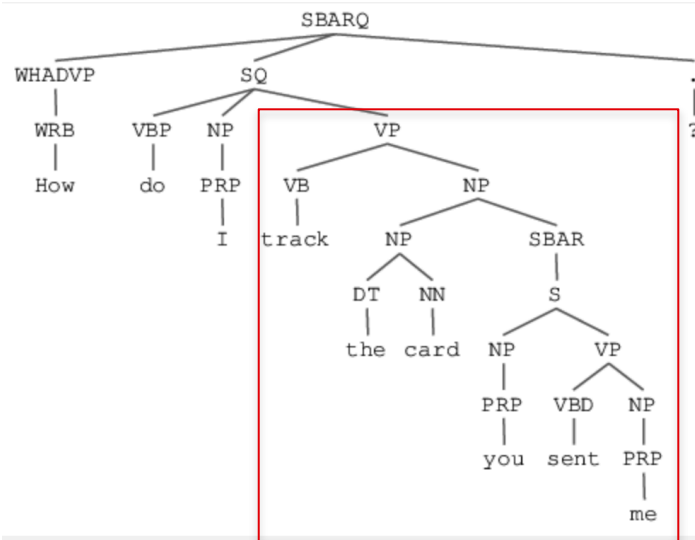

Some good labels but need real eval.

	query	label
	have gotten new card	2
	tracking number card	2
	need Australian dollars instead UK currency	2
	get new card	2
	trade currencies	2
	exchange currencies using	1
	have nt got card	2
	exchange currencies using	1
	need exchange currencies	1
	track card was sent me	2
	use exchange currencies	1

Chunking

Functional parsing

Parametrization

```

{
  Intent: track
  Intendeed: card
  entities: [
    {date: None,
      ?x: None
      pp: you sent me
    },
  ]
}
  
```

Approach 1

How do I track the card you sent me?

Chunking

Semantic clustering

Intent

Class label

Approach 2

How do I track the card you sent me?

Chunking

Parametrization

Expressive
intent

```
{  
  Intent: track  
  Intendeed: card  
  entities: [  
    {date: None,  
      ?x: None  
    },  
  ],  
}
```

Steeve Laquitaine

Perspectives

- Improve data understanding
 - Understand how ambiguity affects parsing
 - Improve similarity analysis
 - Simplify and bridge the two approaches
- etc ...
